TANK LID SEALS

Product Code: Z176-1

Product Description: Manway Seal MWS1632 White Silicone

- Food Grade Non Toxic White
- Odourless and Tasteless
- Long Lasting – Resistant to Oxidation, UV and Ozone
- Resistant to Mould and Dew
- Resistant to Moderate Chemicals, Fluids and Oils
- Will not rot
- Does not cause staining
- Resistant to Extreme Temperatures -50°C to +200°C
- Does not support Fungoidal Growth, Mould or Bacteria
- Withstands Hot Water and Low Pressure Steam

TANK LID SEALS

Product Code: Z176

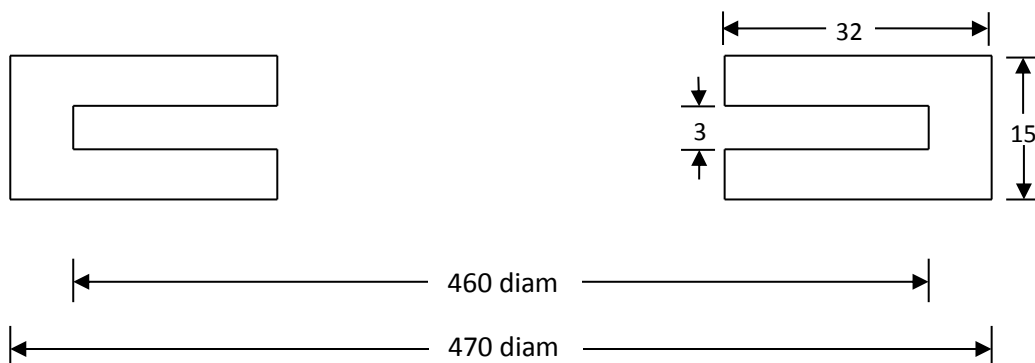

Product Description: Manway Seal MWS1632 White EPDM

Product Code: Z178

Product Description: Manway Seal MWS1632 Black EPDM

- Food Grade EPDM
- Conforms to FDA Standard 21CFR177.2600
- Long Lasting – Resistant to Oxidation, UV and Ozone
- Resistant to Moderate Chemicals, Fluids and Animal Fats
- Resistant to Extreme Temperatures -40°C to $+140^{\circ}\text{C}$
- Withstand Boiling Water and High Pressure Steam
- Available in White and Black

NB White may discolour if exposed to direct sunlight for extreme periods

TANK LID SEALS

Product Code: Z180

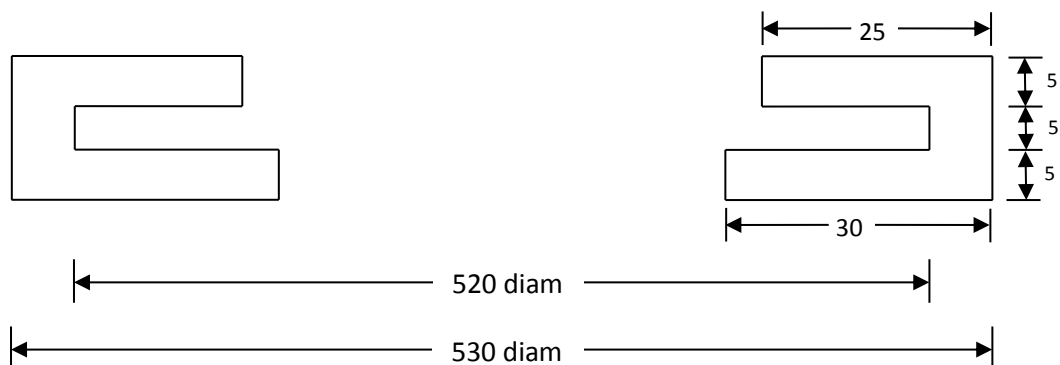

Product Description: Manway Seal MWS475 Black EPDM

Product Code: Z180-1

Product Description: Manway Seal MWS475 White EPDM

- Food Grade EPDM
- Conforms to FDA Standard 21CFR177.2600
- Long Lasting – Resistant to Oxidation, UV and Ozone
- Resistant to Moderate Chemicals, Fluids and Animal Fats
- Resistant to Extreme Temperatures -40°C to +140°C
- Withstand Boiling Water and High Pressure Steam
- Available in White and Black

NB White may discolour if exposed to direct sunlight for extreme periods

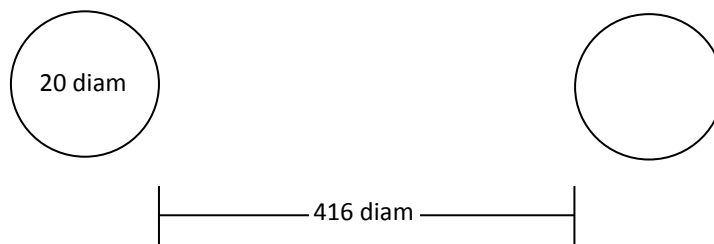

TANK LID SEALS

Product Code: Z184

Product Description: O Ring Type

- White Hygienic Natural Rubber
- Temperature -30°C to +80°C
- 60 Duro Hardness

Other compounds available upon request

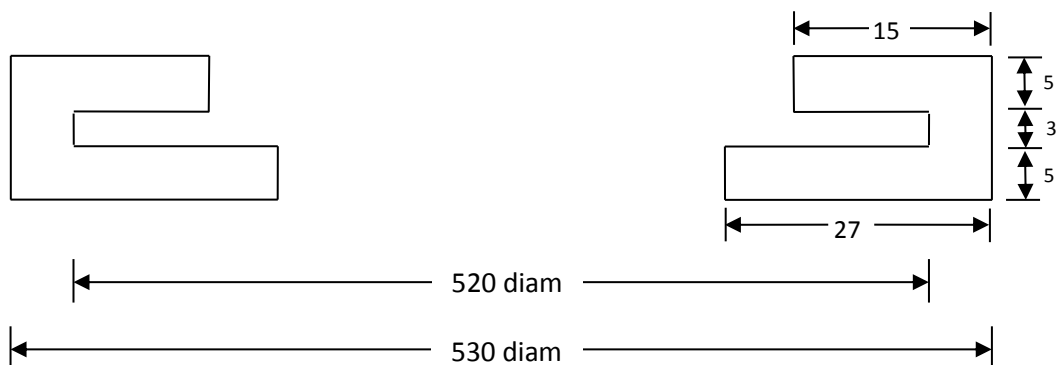

TANK LID SEALS

Product Code: Z185

Product Description: Manway Seal MSW470 Grey Silicone

- Food Grade Non Toxic Grey
- Odourless and Tasteless
- Long Lasting – Resistant to Mould and Dew
- Resistant to Moderate Chemicals, Fluids and Oils
- Will not rot
- Does not cause staining
- Resistant to Extreme Temperatures -50°C to $+200^{\circ}\text{C}$
- Does not support Fungoidal Growth, Mould or Bacteria
- Withstands Hot Water and Low Pressure Steam

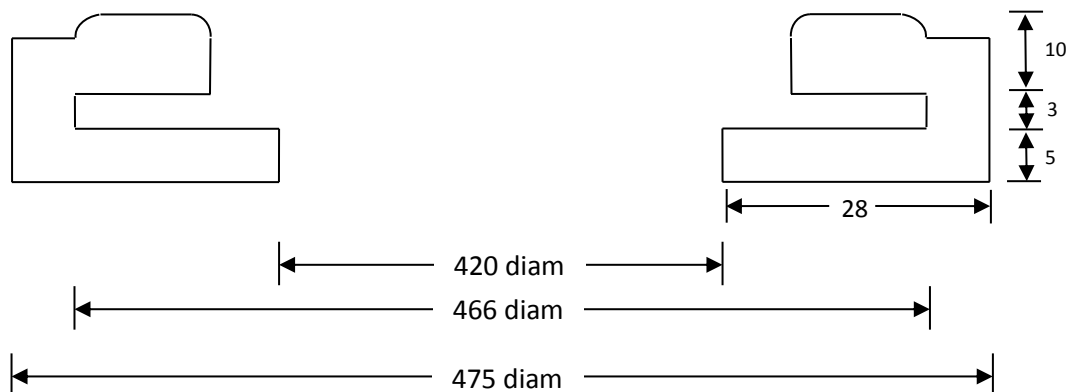

TANK LID SEALS

Product Code: Z186

Product Description: Manway Seal MWS420 Black Nitrile

- Black Nitrile
- Resistant to Moderate Chemicals, Oils and Petrols
- Resistant to Temperature -20°C to +110°C
- Available in White, Black and Grey (made to order)

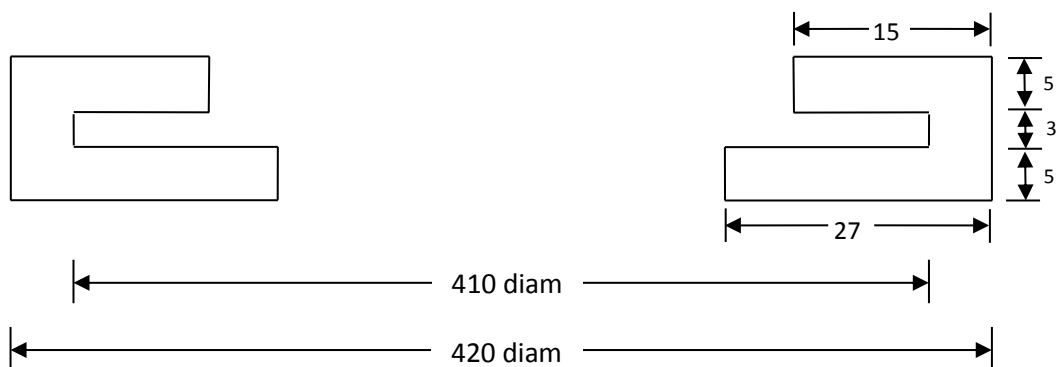

TANK LID SEALS

Product Code: Z188

Product Description: Manway Seal MWS360 White EPDM

- Food Grade EPDM
- Conforms to FDA Standard 21CFR177.2600
- Long Lasting – Resistant to Oxidation, UV and Ozone
- Resistant to Moderate Chemicals, Fluids and Animal Fats
- Resistant to Temperatures -40°C to +140°C
- Withstand Boiling Water and High Pressure Steam
- Available in White Only

NB White may discolour is exposed to direct sunlight for extreme periods

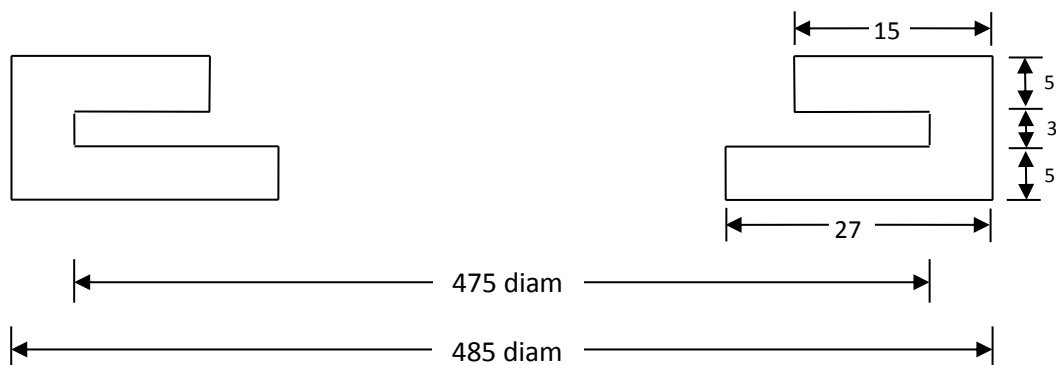

TANK LID SEALS

Product Code: Z206

Product Description: Manway Seal MWS440 Grey Silicone

- Food Grade Non Toxic Grey
- Odourless and Tasteless
- Long Lasting – Resistant to Mould and Dew
- Resistant to Moderate Chemicals, Fluids and Oils
- Will not rot
- Does not cause staining
- Resistant to Extreme Temperatures -50°C to +200°C
- Does not support Fungoidal Growth, Mould or Bacteria
- Withstands Hot Water and Low Pressure Steam

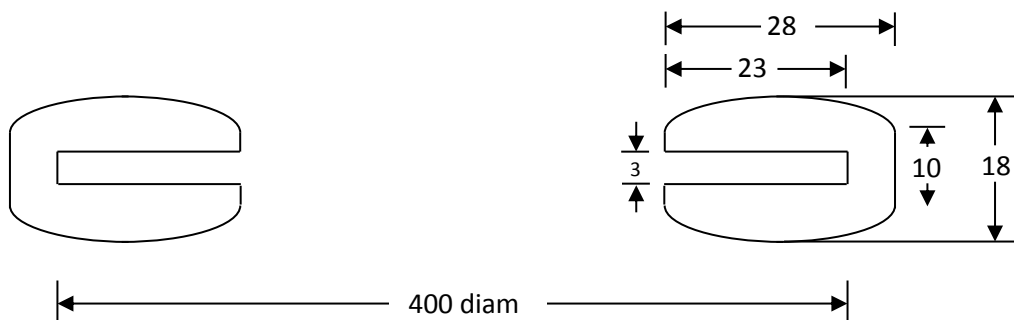

TANK LID SEALS

Product Code: Z189

Product Description: Manway Seal MWS400 White Silicone

- Food Grade Non Toxic White
- Odourless and Tasteless
- Long Lasting – Resistant to Oxidation, UV and Ozone
- Resistant to Mould and Dew
- Resistant to Moderate Chemicals, Fluids and Oils
- Will not rot
- Does not cause staining
- Resistant to Extreme Temperatures -50°C to +200°C
- Does not support Fungoidal Growth, Mould or Bacteria
- Withstands Hot Water and Low Pressure Steam

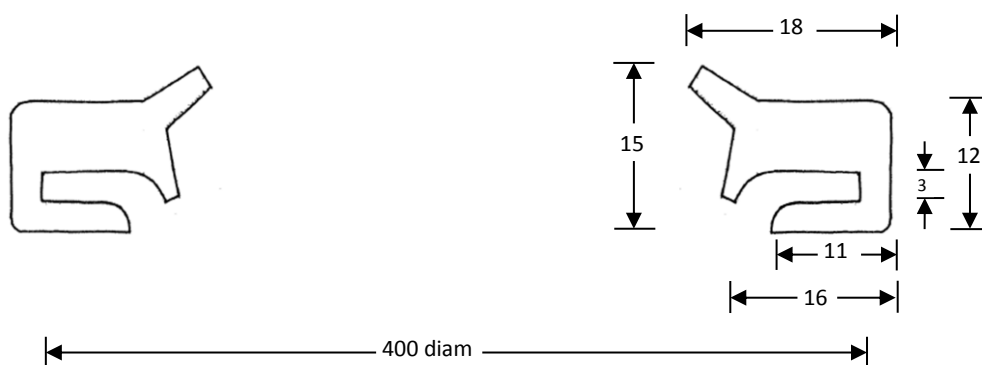

TANK LID SEALS

Product Code: Z208

Product Description: Manway Seal MWS420

- Food Grade Non Toxic White
- Odourless and Tasteless
- Long Lasting – Resistant to Oxidation, UV and Ozone
- Resistant to Mould and Mildew
- Resistant to Moderate Chemicals, Fluids and Oils
- Will not rot
- Does not cause Staining
- Resistant to Extreme Temperatures -50°C to $+200^{\circ}\text{C}$
- Does not Support Fungoidal Growth, Mould or Bacteria
- Withstands Hot Water and Low Pressure System

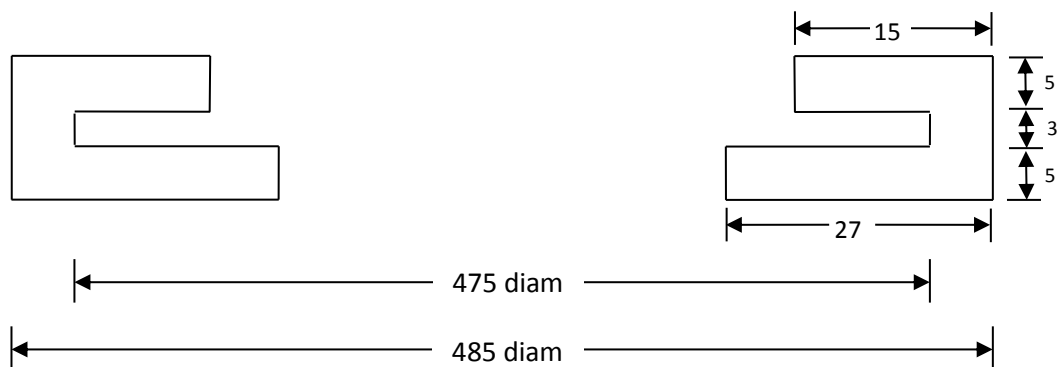

TANK LID SEALS

Product Code: Z210

Product Description: Manway Seal MWS440 Blue Silicone

- Food Grade Non Toxic White
- Odourless and Tasteless
- Long Lasting – Resistant to Oxidation, Fluids, UV and Ozone
- Resistant to Mould and Mildew
- Resistant to Moderate Chemicals, Fluids and Animal Fats
- Will not rot
- Does not cause Staining
- Resistant to Extreme Temperatures -50°C to +200°C
- Does not support Fungoidal Growth, Mould or Bacteria
- Withstands Hot Water and Low Pressure Steam

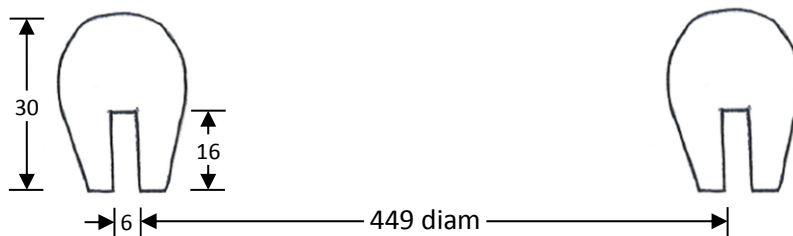

TANK LID SEALS

Product Code: Z213

- White Hygienic Natural Rubber
- Temperature -30°C to +80°C
- 60 Duro Hardness

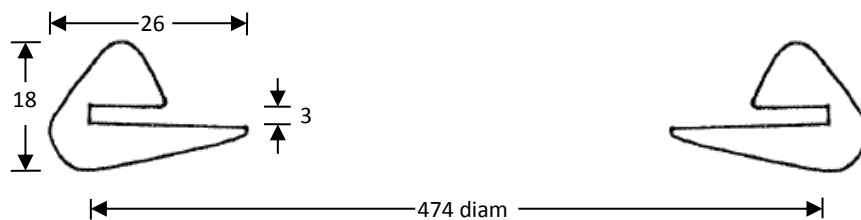

Other compounds available upon request

TANK LID SEALS

Product Code: Z220

- Food Grade Non Toxic White
- Odourless and Tasteless
- Long Lasting – Resistant to Oxidation, UV and Ozone
- Resistant to Mould and Mildew
- Resistant to Moderate Chemicals, Fluids and Oils
- Will not rot
- Does not Cause Staining
- Resistant to Extreme Temperatures -50°C to +200°C
- Does not Support Fungoidal Growth, Mould or Bacteria
- Withstands Hot Water and Low Pressure Steam

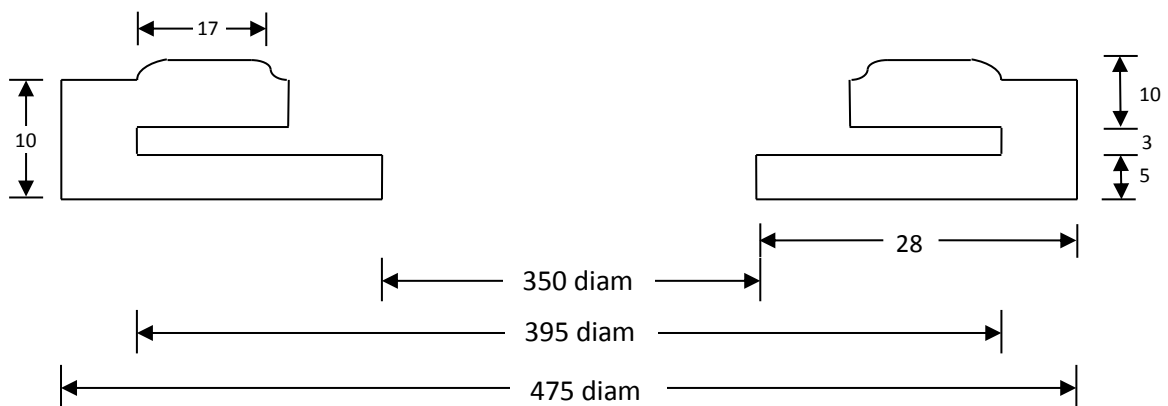

TANK LID SEALS

Product Code: Z221

- White Hygienic Natural Rubber
- Temperature -30°C to +80°C
- 60 Duro Hardness

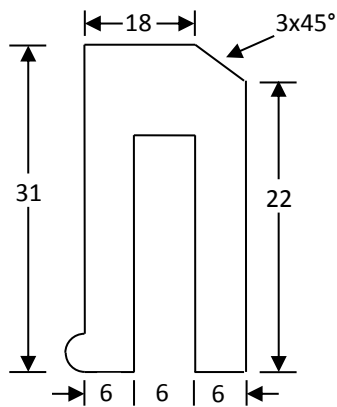

Other Compounds Available upon request

TANK LID SEALS

Product Code: Z177

- White Hygienic Natural
- Temperature Range -30°C to +80°C
- A continuous extruded section that can be easily cut and joined with Loctite where standard seals are not suitable
- Roll length approximately 20m

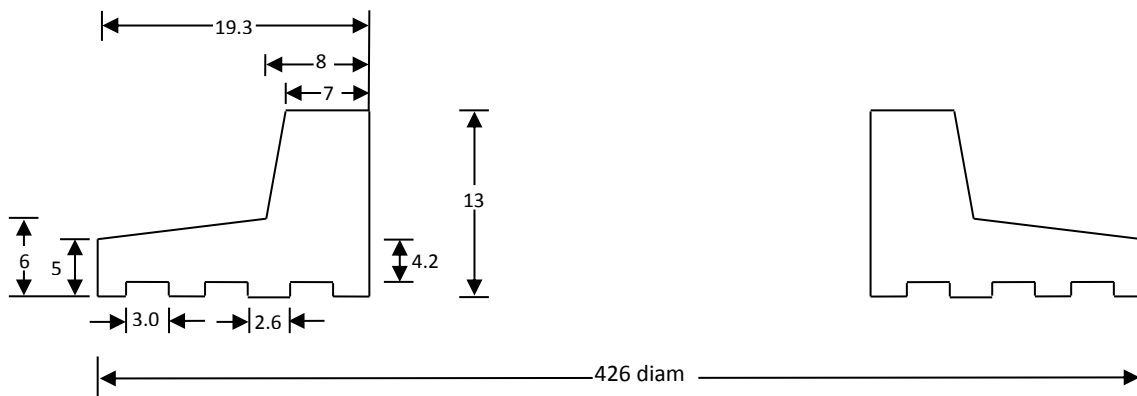

TANK LID SEALS

Product Code: ZZE00015-1

Product Description: Manway Hatch Seal CRE1308

- Premium Grade High Acrylonitrile Rubber
- Hardness: 45 Duro +/- 5
- Excellent Resistance to Pterol, Oil and Solvent including Modern Day Fuels
- Resistant to Temperatures -20°C to +110°C
- Available in Black Only
- A High Grade Rubber Hatch Seal Used in the Transportation of Fuels, Oils etc

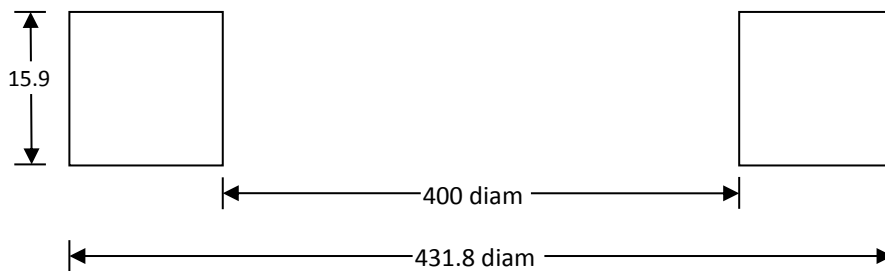

TANK LID SEALS

Product Code: ZT014N

Product Description: Manway Seal Black Nitrile

- Black Nitrile
- Resistant to Moderate Chemicals, Oils and Petrols
- Resistant to Temperature -20°C to +110°C

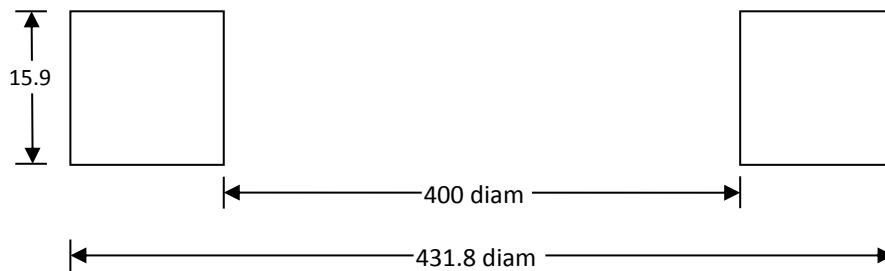

TANK LID SEALS

Product Code: ZT014V

Product Description: Manway Seal Black Viton

- Black Viton
- Resistant to Volatile Acids and Chemicals
- Resistant to Temperature -40°C to +200°C

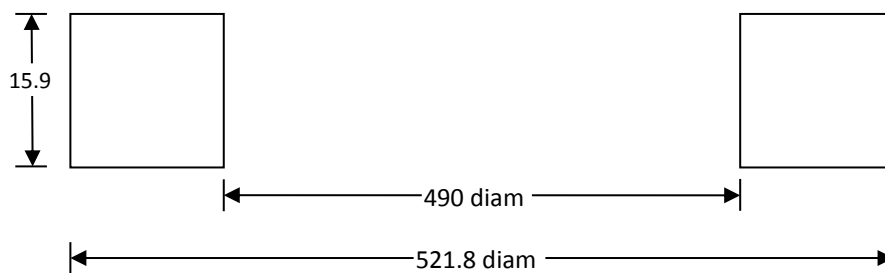

TANK LID SEALS

Product Code: ZT015N

Product Description: Manway Seal Black Nitrile

- Black Nitrile
- Resistant to Moderate Chemicals, Oils and Petrols
- Resistant to Temperature -20°C to +110°C

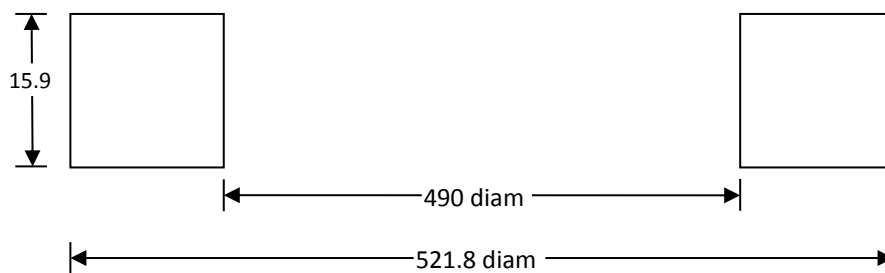

TANK LID SEALS

Product Code: ZT015V

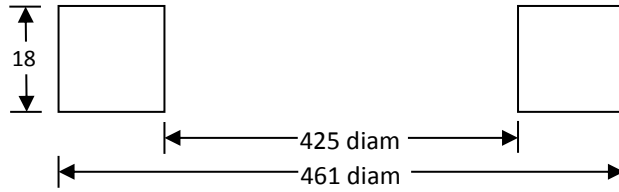

Product Description: Manway Seal Black Viton

- Black Viton
- Resistant to Volatile Acids and Chemicals
- Resistant to Temperature -40°C to +200°C

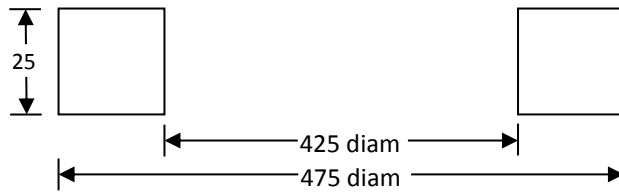

TANK LID SEALS

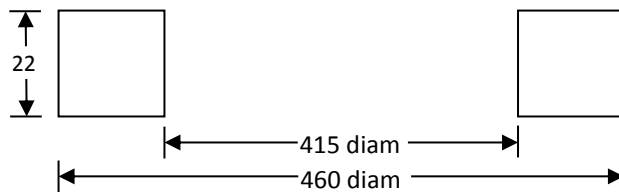

Product Code: ZZM00006

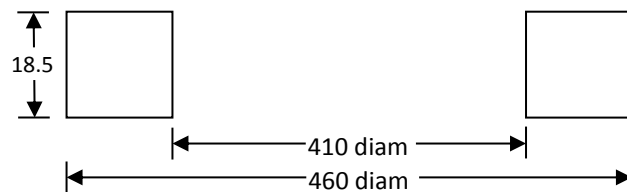

Product Code: ZZM00007

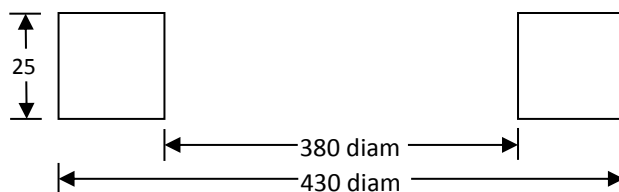

Product Code: ZZM00008

Product Code: ZZM00009

Product Code: ZZM00010
